

Report C: 4000-NS01

4000-NS01 Blue waypoints denote non-system “road” NS01. Newly constructed “Feature Road” would connect with 4000-NS01 to access the Lazyman Inventoried Roadless Area.

4000-NS01 would access Vegetation Units 173bd, 173ab, 90azz, and provides access to all other “roads” leading to other units.

Existing National Forest Transportation System road? [Matt – Yes/No and explain]

Will road be added to National Forest Transportation System during project, as per Tenmile project ROD?

Will road be used by mechanized equipment as per Tenmile project ROD? Yes [Matt - explain, if possible]

Purpose of the road as per Tenmile project ROD:

[Matt – i.e., to access units ** which include ** and will entail **.]

Closure method proposed for road after project complete as per Tenmile ROD: [Matt – explain obliteration etc.. and what that entails/other info. from record etc..]

WAYPOINT 001 (1) Eastern edge of Lazyman IRA from new "Feature Road" (next photo)

Ponderosa pine growing in road (above). Pink X's with pink flagging mark the spot where the new "Feature" road was allowed by Forest Service contract to extend into the IRA but it turned northeast at the boundary (photo to left).

WAYPOINT 002 (8) West. No bare ground. 6'3" road bed. Chokecherries invading road.

180° looking back Eucalyptus, horizontal juniper, conifers growing in trail

WAYPOINT 003 (10) NW Aspen in trail. 3' wide trail

WAYPOINT 004 (11) West. Steep, old, tilting roadbed 7 ½ feet with 12 inch trail.

130 feet beyond Waypoint 004. Rocks and trees growing in road bed.

WAYPOINT 005 (13) West Trail has been cleared.

110 feet further west is Junction with NS12 (left off photo). Ponderosa seedlings in trail.

WAYPOINT 006 West 4' trail. Old erosion has stabilized.

WAYPOINT 007 (17) NW 7' bed. Downfall and seedlings 90 steps further is Junction with 4000-NS04

Wpt 007 (18) About 225 feet west is Junction of NS04

WAYPOINT 008 (19) Ponderosa in 7'8" bed

WAYPOINT 008 (20) West Rocks Doug fir and Ponderosa

WAYPOINT 009 (23) NW 38 yards. Downfall has been cut out for hikers/horses.

80 yards further trail curves to north. Marked leave tree. All others to be cut.

WAYPOINT 010 (26) N Downfall. Marked orange leaf trees.

(27) Junction with NS11

WAYPOINT 11 (29) N aspect End of 4000-NS01 and Junction with 4000-001. No road or trail. Grassy park. Travis-Colorado-Nelson Divide.

(30) looking back across park on Travis-Colorado-Nelson Divide.

Field Form 4000-NS01

25' = 10 steps 100' = 40 300' = 120
